PANDORA TOMORROW™

Solution –

Please go the game site and download the patch file to solve the issue :

www.splintercell.com/us/splintercellpandoratomorrow/downloads.php#finanim

Select UK/Europe Download or Euro/Asia Download to get the patch file V1.31 that can fix the issue.

Patch v1.31 is now available, addressing a couple of crucial issues that were affecting game play. Our developers have really been working themselves to get this patch finished up so that we can hand it off to you.

The following fixes were made:

- In 1.31, Punkbuster disappears if the pb directory was not accessible in read/write; this has been corrected.
- The spy teleportation problem has been corrected.

The patch can be downloaded at the following mirrors:

3D Gamers:
US Download
Canada Download
UK/Europe Download

WorthPlaying:
Be sure to choose your location-appropriate version

FilePlanet:
US Download
Canada Download
Euro/Asia Download

FileFront:
US/CA Download
Canada Download

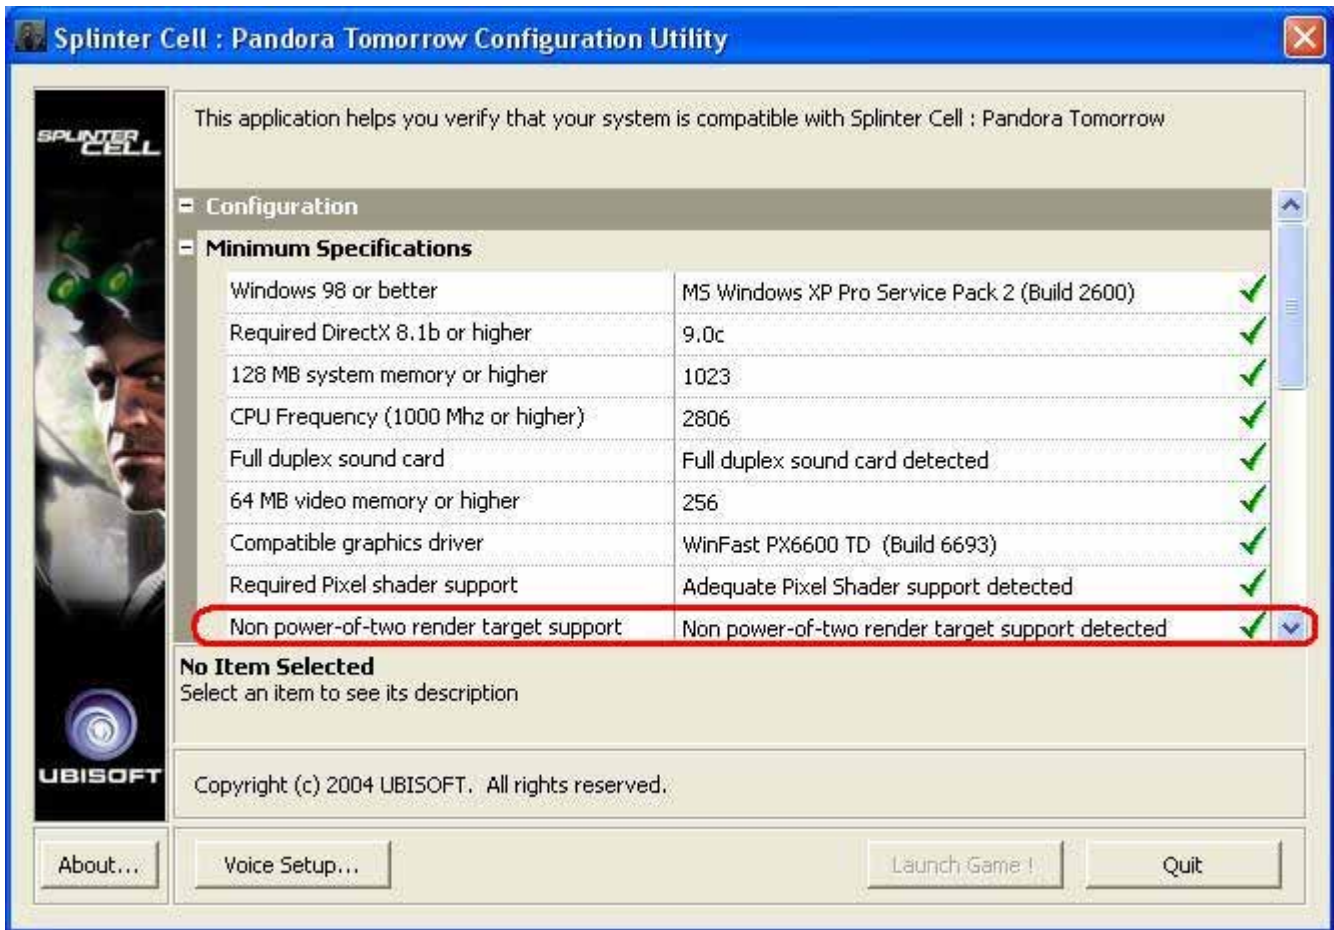

IF YOU WISH TO USE THE AUTO-UPDATE/PATCH FEATURE, YOU MUST FIRST DOWNLOAD AND INSTALL THE UPGRADE LAUNCHER FOUND [HERE](#).

Patch version 1.3

- File Planet
- File Shack
- DLX
- 3D Gamers
- Worth Playing
- Bigpond (Australia)

The following changes come with v1.3:
